RevUp Montana is transforming Montana’s manufacturing and energy industries. With Montana companies poised for growth, employers seek workers who possess up-to-date skills. Similarly, Montana workers in low-wage jobs look to improve their future through new career opportunities. RevUp Montana helps prepare Montana workers for high wage positions across the state by working with employers to develop training programs to meet industry’s needs.

RevUp Montana is a partnership between the Montana Department of Labor and Industry and thirteen 2-year colleges across the state. The partnership aligns funding and support services to provide Montanans access to efficient training aligned with in-demand, high-wage jobs in businesses in key economic sectors: manufacturing and energy. Connecting appropriately trained workers with businesses in need of those skills, RevUp Montana seeks to reduce the workforce skills gap and promote economic growth statewide.
